Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This is the third office action for U.S. Application 10/691,965 to White et al. on October 24, 2003. Claims 1, 2, 4, and 7-9 are pending.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 4, and 7-9 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent 5,197,819 to Hughes. Hughes discloses a sports pole mounting structure with a ground sleeve (11) configured to be mounted in the ground and a support member (41) mounted within the ground sleeve. There is a bracket (61) attachable to the sports pole and engageable with the support member to support the sports pole and inhibit rotation of the sports pole. The bracket has first and second protrusions (83) positioned to receive the support member therebetween. The bracket has a first piece and a second piece that are secured together around the pole and joined by fasteners located on opposite sides of the pole. The protrusions extend substantially below the upper surface of the support member such that they inhibit rotation of the pole. There is a collar (27) having an aperture (that receives the pole) and two engagement sections (47 and the portion above it) of different sizes. The collar can be positioned on a sports pole above the bracket such that at least one

engagement section (47) is engageable with the ground sleeve. The sports pole is not claimed, and therefore limitations to the sports pole are given no patentable significance.

Response to Arguments

Applicant's arguments filed June 20, 2006 have been fully considered but they are not persuasive. Applicant argues that claim 1 has been amended to include the limitations of claim 6. However, the subject matter of claim 6 has been changed with the deletion of sports pole. Applicant is no longer claiming the mounting structure in combination with a sports pole, and therefore the claim is not allowable.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
